ARTS

# Good Hart Artist Residency to host visual artist in October

The Good Hart Artist Residency will host Adrienne Defendi to Good Hart as its visual artist-in-residence. Defendi will be in residence October 4 - 22, and she will be the featured artist of the final Open Studio Saturday of 2026 on October 17 from 10 am - 2 pm. Defendi will offer two workshops to local students. She will visit both Crooked Tree High School and Lakeview High School to lead students through a cyanotype workshop where they will learn and create along with Defendi.

Adrienne Defendi is based in the San Francisco Bay Area, and she has exhibited her work nationally and internationally. Defendi's work focuses on memory, narrative, and materiality and these pieces inform her photographic expression and artistic process. Working across different mediums, from analog to alternative photographic processes, printmaking, and pewter casting, her art practice charts elements of loss and renewal, and the boundless possibilities within reiteration and experimentation.

While at the Good Hart Artist Residency, Defendi will further deepen her art practice and experimentation within the varied ecosystems – from the lake and its dunes, to forest nature preserves and marshes. Having done most of her art making to date on the west coast in Northern California in the burn-scar Big Basin Redwoods State Park (Canopy Constellations, Heart(h), Mother Tree Reimagined), she is eager to explore the varied climate and botany, and consider commonalities and differences among these environments and what they might reveal. The environment itself will guide and inspire: she will research local tree species, document tree-scars with paper impressions, and create an archive of botanicals with cyanotypes. Defendi welcomes discovering new processes, connections, and imagery within the beauty and dynamic landscapes of Good Hart. For a closer look at Defendi's work, visit her website at http://www.adriennedefendi.com/.
